BUREAU PLANT INDUSTRY

"Harris, Stainless Stock Pea - A Billion Dollar Pea"

80 percent viable, bright and sound when harvested January 1, 1938.

Does not stain from excessive dew or rain.

Can be harvested in fall, winter or following spring.

Weevil proof in all trials thus far.

Edible green or dry for man and beast.

Prolific, makes abundance of feed and seed.

Legume, stores humus and plant food in soil.

Has been in the market for 25 years (tried and proven.)

In due time will replace all other field peas.

It's unique, new and superior, obviously deserves dominance.

Will lay in field all winter and germinate in Spring.

There is only one-fourth ounce of seed available.

Only (6) persons can secure seed in Spring of 1938.

Fixed price for 1938 is \$1000.00 per pair (2 peas.)

Rendezvous for detailed information, Huntingdon, Tenn., May 2nd, 1938.

O. M. JOWERS, Bruceton, Tenn.
